Fair Oaks, CA 95628

Dear Ron,

I just wanted to take the opportunity to recognize your contribution to our recent, and we're pleased to say, successful campaign for Measure S. As you know Measure S allocates some badly needed funding to the repair, upgrade and maintenance of San Juan Unified School District's schools.

When things go right with a campaign like this it's tough to say exactly why. Many factors came together to create success. What is certain is that one contributing factor was our ability to deliver a clear message aided by high-quality presentation materials. Your help in 'beefing-up' our PowerPoint presentation was greatly appreciated.

On those occasions when we used the presentation we felt confident that we were conveying a professional looking, and 'down-to-business,' approach that helped us hold the attention of our audience. It worked!

Thanks again for taking the initiative to offer your support and expert assistance.

Sincerely,

A handwritten signature in black ink, appearing to read 'Paul C. Disario', with a horizontal line extending to the right.

Paul C. Disario  
Associate Superintendent
